| 5 | LIST OF EQUIPMENT AND FURNITURE FOR THE NEP | 247 |
| 6 | APPENDIX 6.I – MINIMUM TECHNICAL SPECIFICATIONS | 259 |

1 INTRODUCTION

- 1.1 The purpose of this ANNEX is to present the minimum technical specifications and list of items required for the operation of the HOPE HEALTH COMPLEX, including all necessary EQUIPMENT and FURNITURE.

2 RESPONSIBILITIES

- 2.1 The CONCESSIONAIRE will be responsible for the availability of the defined items, whether through acquisition, lending, leasing or other form of contracting for the EQUIPMENT and FURNITURE indicated in this ANNEX, including MEDICAL-HOSPITAL EQUIPMENT, LABORATORY EQUIPMENT, ICT EQUIPMENT, as well as other equipment, materials and items necessary for the operation of the HOSPITAL COMPLEX, LACEN and other activities performed in the CONCESSION AREA.
- 2.2 Regardless of the way in which the items are made available by the CONCESSIONAIRE, according to the options indicated above, it is mandatory that they be subject to reversion to the GRANTING AUTHORITY at the end of this CONCESSION, as stipulated in the AGREEMENT in items 10.16 and 10.18.
- 2.3 In addition to the MEDICAL-HOSPITAL EQUIPMENT and LABORATORY EQUIPMENT described in this ANNEX, the CONCESSIONAIRE will also be responsible for other items necessary for the provision of the SERVICES and FINALISTIC SERVICES, including, but not limited to:
 - 2.3.1 Air Conditioning and Ventilation Equipment: Air conditioning systems, including filtration and exhaust, as well as other devices and equipment, according to the guidelines of ANNEX 5 – MINIMUM GUIDELINES FOR PROJECTS AND WORKS;
 - 2.3.2 Energy Equipment: Generators, UPSs, items that are necessary for the operation of the EQUIPMENT, among others, according to the guidelines of ANNEX 5 – MINIMUM GUIDELINES FOR PROJECTS AND WORKS;
 - 2.3.3 Security Equipment: Alarm systems, smoke detectors, fire extinguishers, equipment for management and access control, CCTV (closed circuit television) system, sprinklers, hydrants, emergency lighting and other security devices;
 - 2.3.4 ICT EQUIPMENT: Set of equipment related to Information and Communication Technology, comprising items such as:
 - 2.3.4.1 Network and Telecommunications Equipment: Routers, switches, telephones, headsets, cabling, and other devices necessary to ensure connectivity and internal and external communication;
 - 2.3.4.2 Computer Equipment: Computers, monitors, printers, scanners, mobile devices for the provision of SERVICES or FINALISTIC SERVICES such as PDAs (*Personal Digital Assistant*) and tablets, and other devices necessary for the administration and operation of the HOPE HEALTH COMPLEX;
 - 2.3.4.3 Audio and Video Equipment: Sound systems, projectors, screens, microphones, cameras and equipment for conferences and training, among other devices, considering, mainly, the areas dedicated to teaching and research activities, in the HOSPITAL COMPLEX and LACEN, such as, for example, auditorium, meeting rooms and training rooms;
 - 2.3.4.4 Service Totems: Interactive totems for self-service, information consultation and directing PATIENTS, companions and visitors;
 - 2.3.4.5 Televisions: TVs for waiting rooms, rest areas and PATIENT rooms;
 - 2.3.4.6 Screens for Monitoring: Televisions or Monitors distributed throughout the HEALTH COMPLEX with monitoring indicators for the FINALISTIC SERVICES, also including information panels for USERS and teams of the FINALISTIC SERVICES;
 - 2.3.4.7 Communication Materials: Signposts, information panels, orientation stickers, emergency signage, accessibility signage (Braille signs, tactile floors, items for sign language or digital audio guide, etc.), among other necessary devices.

- 2.3.5 Transportation Equipment: Elevators and freight elevators, according to ANNEX 5 – MINIMUM GUIDELINES FOR PROJECTS AND WORKS for the transportation of USERS, visitors, employees, samples, inputs, materials, equipment, among others;
- 2.3.6 CARPENTRY: Set of fixed or modular elements, custom-made in various materials such as wood, wood derivatives, stainless steel (stainless steel) and others, intended for the ambiance, functionality and organization of the internal spaces of the HOSPITAL COMPLEX and LACEN. It comprises items such as cabinets, countertops (including specific stainless-steel countertops for laboratory areas and others with hygiene and resistance requirements), panels, counters and other components, according to the needs of each environment and the guidelines of ANNEX 5 – MINIMUM GUIDELINES FOR PROJECTS AND WORKS;
- 2.3.7 FURNITURE: Set of pieces and furniture intended for the composition of the environments of the HOSPITAL COMPLEX and LACEN, which aims to ensure functionality, ergonomics, safety and hygiene, in accordance with the standards applicable to the health sector, and encompasses items aimed at the comfort, accessibility and well-being of USERS, in addition to supporting the organization, storage, transportation and execution of activities by the professionals of the FINALISTIC and non-finalistic SERVICES of the HOSPITAL COMPLEX and LACEN, as provided for in ANNEX 6 – EQUIPMENT AND FURNITURE, including, but not limited to:
 - 2.3.7.1 Office Furniture: Tables, chairs, cabinets, drawers and other furniture necessary for areas such as administrative offices, meeting rooms and reception areas;
 - 2.3.7.2 Storage Furniture: Furniture such as bookshelves, shelves and cabinets for the storage of materials in various places, such as pharmacies, warehouses and laboratories, of the HOSPITAL COMPLEX and LACEN, which are not provided for in the scope of CARPENTRY;
 - 2.3.7.3 Furniture for Living Areas: Sofas, armchairs, chairs, coffee tables, and other furniture for living areas in the HOPE HEALTH COMPLEX;
 - 2.3.7.4 Decoration Elements: Furniture, decorative plants, paintings, and other items that contribute to a welcoming and humanized environment.
- 2.3.8 Other equipment: Set of assets not linked to the FINALISTIC SERVICES, including support, infrastructure, utility or administrative equipment, whose function is to complement the operation, maintenance or management of the environment.
 - 2.3.8.1 Mobility and Accessibility Equipment: Wheelchairs, stretchers, transport carts and other equipment for use in the HOSPITAL COMPLEX and LACEN;
 - 2.3.8.2 Appliances: Refrigerators, microwaves, coffee makers, water purifiers, and other appliances necessary for employees' rest and eating areas;
 - 2.3.8.3 Other EQUIPMENT and FURNITURE for the proper provision of SERVICES, as provided for in ANNEX 7 – SCHEDULE OF RESPONSIBILITIES;
 - 2.3.8.4 Other EQUIPMENT and FURNITURE as provided for in ANNEX 5 – MINIMUM GUIDELINES FOR PROJECTS AND WORKS.
- 2.4 The CONCESSIONAIRE will be responsible for the preparation of the SPECIFICATION BOOKLET, under the terms of this ANNEX and ANNEX 3 – CONCESSION PHASES, for subsequent approval by the GRANTING AUTHORITY.
- 2.5 For the preparation of the SPECIFICATION BOOKLET, the CONCESSIONAIRE must consider the following items:

- 2.5.1 Observe the list of items and respective quantities of EQUIPMENT and FURNITURE, provided in this ANNEX;
- 2.5.2 Observe the minimum technical and functional specifications provided for in APPENDIX 6.1;
- 2.5.3 Observe the general parameters of the ARCHITECTURE/ENGINEERING PROJECTS of the HOPE HEALTH COMPLEX, such as the standard of supply of water, sewage, internal electricity and information technology structures, security, air conditioning, sustainability, accessibility and mobility, among others;
- 2.5.4 The CONCESSIONAIRE is guaranteed the flexibility of means and the right to choose which manufacturers and models it wishes to adopt, if they meet the technical standards, the legislation in force and the minimum requirements of performance and quality required in the CONTRACT and its ANNEXES;
- 2.5.5 Indicate the level of criticality for each MEDICAL-HOSPITAL EQUIPMENT, observing the following distribution among the total quantity of MEDICAL-HOSPITAL EQUIPMENT:
 - 2.5.5.1 High Criticality: from 5% (five percent) to 20% (twenty percent);
 - 2.5.5.2 Medium Criticality: from 15% (fifteen percent) to 50% (fifty percent);
 - 2.5.5.3 Low Criticality: remaining MEDICAL-HOSPITAL EQUIPMENT.
- 2.5.6 Indicate the level of criticality for each LABORATORY EQUIPMENT, observing the following distribution among the total quantity of LABORATORY EQUIPMENT:
 - 2.5.6.1 High Criticality: from 5% (five percent) to 20% (twenty percent);
 - 2.5.6.2 Medium Criticality: from 15% (fifteen percent) to 50% (fifty percent);
 - 2.5.6.3 Low Criticality: rest of the LABORATORY EQUIPMENT.
- 2.6 Within the scope of the preparation of the SPECIFICATION BOOKLET, the PARTIES may agree on adjustments in relation to the quantity and technical specifications of the FURNITURE provided for in this ANNEX, so that there is adherence to the ARCHITECTURAL/ENGINEERING PROJECTS, preserving compliance with the respective legislation.
- 2.7 The technical and functional specifications defined in APPENDIX 6.1 are considered minimum, so that the CONCESSIONAIRE may, when preparing the SPECIFICATION BOOKLET, suggest, upon justification, specifications higher than those indicated, without the right to the economic and financial rebalancing of the CONTRACT.
- 2.8 When the SPECIFICATION BOOKLET is made and presented, in the absence of technical specifications or in the impossibility of making the EQUIPMENT and/or FURNITURE available in the exact terms set forth in this ANNEX, the CONCESSIONAIRE will be allowed, with the prior consent of the GRANTING AUTHORITY, to indicate other technical specifications, observing the best market practices.
 - 2.8.1 The CONCESSIONAIRE shall be responsible for economic and financial rebalancing, in the case of the provision of EQUIPMENT or FURNITURE with technical specifications higher than those provided for in this ANNEX when motivated by a unilateral request of the GRANTING AUTHORITY.
 - 2.8.2 Exceptionally, the CONCESSIONAIRE may suggest technical specifications lower than those provided for in this ANNEX, by sending a request for prior consent by the GRANTING AUTHORITY, accompanied by the respective technical justification, safeguarding the economic and financial balance of the CONTRACT.

- 2.9 The SPECIFICATION BOOKLET must include an ALLOCATION PLAN for the EQUIPMENT and FURNITURE, in accordance with the minimum quantities defined in this ANNEX, in accordance with the applicable legislation, as well as a detailed description of each item, presenting at least the following information for each of the elements:
- 2.9.1 Manufacturer/brand;
 - 2.9.2 Model/year;
 - 2.9.3 Complete technical specification (equipment catalog);
 - 2.9.4 Supply unit;
 - 2.9.5 Certifications and registrations provided for in specific regulations;
 - 2.9.6 Manufacturer's standard commissioning plan;
 - 2.9.7 Criticality Level (High, medium or low), observing the provisions of item 2.5;
 - 2.9.8 Expected opening hours for each LABORATORY EQUIPMENT and MEDICAL-HOSPITAL EQUIPMENT, when applicable;
 - 2.9.9 Expected service life;
 - 2.9.10 Productive capacity by time.
- 2.10 In addition to observing the minimum performance and quality requirements contained in the CONTRACT and its ANNEXES, the CONCESSIONAIRE shall ensure the interoperability of the EQUIPMENT, with the information systems, technologies and resources of the various services and infrastructure of the HOSPITAL COMPLEX and LACEN, as provided for in ANNEX 7 – SCHEDULE OF RESPONSIBILITIES.

3 LIST OF EQUIPMENT AND FURNITURE FOR THE HOSPITAL COMPLEX

3.1 The table below presents the list and quantity of MEDICAL-HOSPITAL EQUIPMENT intended for the HOSPITAL COMPLEX, to be made available by the CONCESSIONAIRE.

Table 1 – MEDICAL-HOSPITAL EQUIPMENT for the HOSPITAL COMPLEX
